

It is my understanding the broadcast service LPFM may interrupt the radio station I listen to (K-LOVE). K-LOVE is a station I have enjoyed listening to for the past several years. I have found it to be inspirational and uplifting. If the LPFM interrupts service to our area of K-LOVE there are very few alternatives. Because K-LOVE is a radio station all can listen to, including small children, without fear of adult content, or inappropriateness, the loss of their service would leave a space in the listening community that will be difficult to fill. Please consider this as you make your considerations. Thank you for your time.
